

Children and parents: Come and have a “wild” time with

JUNIOR FIELD NATURALISTS SA

Do you have a fascination with **WILD ANIMALS**, their lifestyles and habitats? Also rocks, crystals, geology, astronomy ... anything to do with the wonderful world of nature?

Find out more with **Junior Field Naturalists SA**, a nature club for primary school children which is affiliated with the Field Naturalists' Society of South Australia.

Our meetings are held on the **LAST THURSDAY** of each month (except January and December) at the **Bellevue Heights Primary School** in the **Activity Room**.

TIME: 7.00pm to 8.15pm

FEE: \$40.00 per family per year

This money contributes towards our club's sponsorship of a **Murray Tortoise** at the zoo.

A guest speaker attends each meeting, and topics cover a wide range of animals and nature such as reptiles, bats, frogs, geology, birds, etc. Where possible, live specimens of the relevant animal are brought to the meeting.

Children are encouraged to bring along any interesting specimen (eg fossil, insect, etc) for “show-and-tell.” **FIELD TRIPS** will also be held during the year.

Parents are encouraged to attend our meetings and share the experience with their children. *We do ask that you arrive in time for meetings to start promptly at 7.00pm.*

We look forward to your company at our first meeting for 2019 on:

**THURSDAY 28th FEBRUARY
at 7.00pm**

Topic: "IDENTIFYING BIRDS"

Our guest speaker is Phil Barron from Barron Environmental. He has extensive experience in ornithology, habitat restoration and ecology. He will teach us how to identify local birds by hearing and not just seeing them.

Dates for meetings for 2019 – Thursdays on:

28 February, 28 March, 2 May, 30 May, 27 June, 25 July, 29 August,
26 September, 31 October and 5 December
